Berlin, April 1.—The offer of Czar Nicholas to pardon any political prisoner in Russia who would volunteer for the front has not been accepted in a single instance.

## DECLARES STATE MEETING ILLEGAL

MRS. VIE H. CAMPBELL OF EVANSVILLE, GIVES OPINION.

### SOUNDS A TIMELY WARNING

To Wisconsin W. C. T. U.—Many Questions Bothering the Order;

Eau Claire Home Is One.

Janesville members of the W. C. T. U. are interested in the announcement that the coming state convention to be held in Racine next September or October, has been declared illegal by Mrs. Vie H. Campbell of Evansville, state superintendent of the department of parliamentary law and chairman of the national board of organizers, and by attorneys whom she has consulted. The Wisconsin W. C. T. U. women are divided over a proposition to repudiate the Eau Claire rescue home, which the state union voted to purchase and which is being conducted in the name of the organization under the superintendency of Dr. Annette Shaw.

Mrs. Campbell's View

"The state W. C. T. U. is certainly planning to hold an illegal convention, and all business transacted will be illegal," said Mrs. V. H. Campbell. "The amendment to the by-laws providing for the holding of the annual state convention in the fall instead of the early summer was rushed through just before the adjournment of the last convention at Eau Claire, the action being taken without any previous notice whatever. The state organization is incorporated under the laws of the state of Wisconsin, which make it doubly imperative that this notice of the proposed amendment should have been given."

Oppose Eau Claire

"This action was taken because the state officers are opposed to the Eau Claire home which is the best work in Wisconsin. They have been fighting the home for some time and before the last convention Mrs. W. H. Upham of Marshfield, the state president, sent out a circular letter to the unions in which she asks them to send their representatives to the state convention to vote on the question of the executive board, held in Milwaukee. It was voted to have the question come up as a special order at the convention following the report from the home."

## APRIL WEATHER PROMISES WELL

Hicks Predicts a Month of Storms and Many Uncertainties Next.

The forecast of the weather for April by the Rev. Ira Hicks, is not at all reassuring as many storms accompanied by wind with an occasional gust of cold weather are predicted. The last of March will usher April in with northwesterly gales and colder and the storm period will be central about the 5th, when the weather will moderate and spells of rain and snow will come. Rising barometer and cold will be followed by the second storm period until the 13th. Local showers with hail will usher in the third storm period from the 15th to the 17th. The showers and squalls will increase in intensity and light frosts will occur to the northward.

After the 21st a general warm wave will develop and decided storms of rain, hail, thunder, and wind squalls will visit most sections of the country. Sudden changes to high barometer, cold winds from the northwest, followed by clear weather and frosts at night can be looked for. The fifth storm will follow on the 26th and the month will go out with heavy storms accompanied by violent rains.

## SUES RAILWAY FOR ONLY \$50,000

James Dougherty Asks Big Damage for Injuries of Two Years Ago.

James F. Dougherty of Rockton, nephew of Alderman John C. Clarke of Beloit, has brought suit against the C. & M. & St. P. railroad company for \$50,000 for injuries received by him in a railroad accident at Rockton two years ago. The suit comes up for trial at the April term of court in Rockford.

Dougherty was an employee of the company at the time and was run over by a freight train receiving injuries which resulted in the amputation of one leg and permanent injuries about the body and internally. The wonder is that he survived the terrible accident at all.

R. K. Welsh is attorney for the complainant and associated with the Rockford attorney in the case is the firm of Fethers, Jeffris and Moutat of this city.

Mr. Welsh also docketed a suit for \$5,000 against the Illinois Central railroad company. Mrs. Rachel Engleeson sues as administratrix for the death of her husband, the late Henry Engleeson who was killed by the cars at Dixon one year ago today.

Engleeson was a brakeman in the company's employ at the time he met with the accident which cost him his life and the widow asks damages from the road. The widow and children are making their home in Beloit.

## MARCH WENT OUT VERY LAMB-LIKE

Today is April Fools' Day—Beware of Kicking Old Hats or Stray Pocketbooks.

Beware of the mischievous school-boy genius, for today is April fool's day. Don't take a kick at any stray hats that may be seen on the sidewalks—for it is a favorite "stunt" of the small boy to place them there and all "catch" with a kick. Keep one eye on the junior member of the family when you sugar your tea at the table tonight lest you dope it with salt; don't be greedy and accept too many treats, for tempting chocolate drops are apt to be loaded with soap or something else as repulsive to the palate. These are only a few of the favorite April fool day pranks.

Lamblike

March went out like a lamb. The air was balmy and full of springtime promise. No sub zero prevailed last month. The lowest temperature was on March 3, when the thermometer registered below zero. The warmest day on record was last Friday 52 degrees above zero. If the present moderate temperature continues the frost will soon disappear from mother earth.

Some Rainfall

The total precipitation during the past month was 2.15 inches in snow and rain. The heaviest rainfall occurred March 24.

## THE WORST FLOOD IN TWENTY YEARS

Rock County Farmers Say the Loss to Agriculturalists Will Be Great.

"This will be the worst flood in twenty years," said a prominent Rock county farmer this morning. "The damage in the city here will be but a trifle to the loss of the farmers who live along the river banks and near Lake Koshkonong. The loss is 1881 will be nearly duplicated. Why, some farms are over half under water now and if the river comes up much higher it will be worse still. However, a good dry spring will do much to help the situation and we may not suffer so very much."

## LOCAL TEACHERS AT CONVENTION

Superintendent Buell Made Response to Addresses of Welcome to S. W. T. A. This Morning.

One hundred and sixty-two teachers from various parts of the state were in attendance at the convention of the Wisconsin teachers' institute conducted which opened at Madison yesterday. Among the Janesville visitors were: Supt. H. C. Buell, Frank G. Froelich, F. B. Root, and Misses Elmore C. Polkner, Elizabeth McGrath, Helen L. Tuttle, Ada Turner, and Gertrude L. Zeininger. The general session of the Southern Wisconsin Teachers' association opened this morning. Following the greetings in behalf of the state and the state university, Supt. Buell made the response for the association. A discussion of the question: "Do High School Athletics, as They Are, Pay a Dividend?" was then discussed from the standpoint of the teacher, parent, and pupil. Manual training in the grades was the second topic to be considered. This afternoon Miss Marjorie Jackson of this city was to read a paper on "Grammar and Composition—Mutual Relations in the Grades."

## MUCH SAVING IN THOMPSON SHOP

Beloit Factory Fire Will Not Be a Total Loss as Was at First Expected.

As there are thousands of dollars worth of castings and material on the floors of the Thompson plant in South Beloit which were not injured by the fire last Tuesday, it is understood that as soon as the insurance adjusters have viewed the ruins, that machines will be installed and this material converted into money. There is probably \$20,000 worth of raw material that can be used if machines can be placed.

This method of recovery from the fire paralysis recalls the time in 1875 when the Thompson plant was destroyed by fire. John Thompson, then the head of the concern, soon had a machine here and another there and he was able to fill orders in a very short time after the fire. It is possible that the foundry which was injured will be converted into a machine shop and work will begin soon there.

While the firm is not yet in a position to announce its plans there is a general confidence that the shops will be rebuilt. Whatever decision is made, will be made soon, as the delay is of great loss to the company. The adjustment of the shop will be made next Monday and will be by the Western Adjustment and Inspection company and the Wisconsin Adjustment bureau.

## SON OF PIONEER VISITED IN CITY

W. W. Jones of Sioux City, Iowa, Made a Brief Stop Here Recently.

W. W. Jones, son of the pioneer from whom this city derives its name, visited the city recently and spent some time in trying to locate the old landmarks of his father's time. Mr. Jones is sixty-five years old and is in business in Sioux City, Iowa. Not a single frame house that was here at the time his father left could be found.

### JUDGE BAENSCH MET FRIENDS

Political Talk—What Everyone is at Present Much Interested In.

Madison, Wis.—Special: "Judge, I told you that disreputable woman of mine, she said you all do dime you could not stop her dalkins, and I half to chide her to quietness sometimes." These were the words of a German in his own defense. In the municipal court here yesterday, when Herman Schalla was arraigned on the charge of assault and battery preferred by his wife Ida. The woman, who is possessed of a luxuriant growth of auburn hair and a pair of piercing dark brown eyes, fully maintained the reputation which her husband thus gave her by a continuous and apparently unexhausted outbreak of her troubles told to the court in broken English and to such an extent that the judge was compelled to order her to her seat, and even then she persisted in talking. The prisoner had already been found guilty after a trial when the torrent of feminine talk overwhelmed the court and the result was that the passing of sentence was postponed until May 2, when in all probability it will be suspended entirely.

Stole Letters

Charles O. Larson of Chicago, a railway mail clerk formerly running on the Chicago, Abbotford and Minneapolis run, was arraigned in the United States court here yesterday, charged with tampering with the mails. He is accused of opening a letter at Stockton, December 17, 1903, addressed to F. G. Pattee, a fellow mail clerk, and another on the following day, addressed to F. L. Dickerman of Milwaukee. He pleaded not guilty and was released on bail of \$1,000.

Baensch in Madison

Judge Emil Baensch of Manitowish, a candidate for the nomination for governor of Wisconsin, held a lengthy conference Wednesday night at the Park hotel with Philip L. Spooner, his campaign manager, and other leading republicans of the state. The progress of the campaign was carefully considered, reports of the situation were received and further plans devised.

One of the most significant things of the conference was the report that the burning of the state capitol on the morning of March 27, was having a disastrous effect upon the third term campaign of Governor La Follette. Although the loss on the statehouse has been estimated by the governor as only \$250,000 to \$300,000, it is known that the fire will entail upon the people of the state an expenditure of not less than \$1,000,000. It has been investigated by the opponents of the governor and determined according to circulars and sworn statements of former capital officials, that the fire could not have been prevented if the protection provided had been applied and the charge of official negligence is being brought against the governor throughout the state effectively. After the conference the leaders were smiling and complacent and although no statement was given out formally it was learned that the conclusion had been reached from the reports that the third term movement of the present administration was meeting with disfavor in the state and that the next governor would be Judge Baensch or former Congressman S. A. Cook of Neenah.

Capitol Question

The state of Wisconsin is to be torn this summer with a great campaign for the removal of the capitol from Madison to Milwaukee. It has been learned that the Merchant's & Manufacturers' Association of the cream city has quietly determined that as soon as the state convention is out of the way a campaign will be commenced in favor of the removal of this state. A large fund of money, some \$16,000, is in sight, but none of this will be spent for the actual building or site. A site described as the best in the metropolis is already optionally secured. This is situated next to the Milwaukee public library, being the entire next square. It now belongs to a rich widow, who wishes to give it to the public either as a park or as the site for the state capitol. By this arrangement the proposed site is secured. The money to be raised and which is already said to be assured, is to be used in a state campaign for the election of members of the legislature who will vote in favor of Milwaukee. As the state constitution provides that the capitol shall be situated at the place of the state university, it would be necessary to remove the university, a practical impossibility, or secure an amendment to the constitution. The Milwaukee boomers, however believe the chances of the state metropolis are so good that even the necessary constitutional amendment can be secured.

## SPECIAL SERVICE FOR GOOD FRIDAY

St. Peter's English Lutheran Church Asks All Members to Attend Tonight's Meeting.

Good Friday service at St. Peter's English Lutheran church, former municipal court room on the bridge, this evening at 7:30. Rev. A. C. Anderson will preach and a cordial and general invitation is extended to attend. The catechetical class will meet at 7 o'clock, and a preparatory service will be held at the close of the regular service at which every member is expected to be present. Reception of members by confirmation and otherwise and the sacrament of the altar on Easter Sunday will be observed.

Mr. Victor G. Marquissee of Madison is the guest of Mr. and Mrs. F. C. Grant.

## CLEANING UP IS NOW THE RAGE

Rubbish From Yards and Alleys Is Being Hauled Away After a Hard Winter.

The rubbish wagons about the city are being given good stunts just now and every man who engages in the business of cleaning yards, hauling ashes and caring for rubbish has a slate full of orders. The past few days softened up the heaps in the back yards and now they are being hauled to the dumping grounds. The ash piles never have been larger, and this is one of the best evidences that the winter has been a long and severe one, or the extra size of the ash pile tells of the extra amount of coal that has been purchased and burned.

It will be a week or ten days before all the alleys and back yards can be cleaned up, but the health officer and sanitary policeman are keeping their eyes open and will allow no delay in this work, as the health of the residents of the city is at stake, and the sooner all the stuff is removed so much quicker is taken away one of the main causes of spring sickness.

## Right Here in Janesville

The People's Drug Co., and King's Pharmacy Guarantee to Refund Money if Hyomel Fails to Cure the Worst Case of Catarrh.

It is no uncommon thing to see a medicine advertised as a "guaranteed cure." But investigation usually shows that the guarantee is made by some unknown firm, hundreds of miles away.

The guarantee, though, that comes with Hyomel, is entirely different. It is made by the People's Drug Co., and King's Pharmacy, two of the most reliable drug firms in this section. They advertise that if Hyomel does not cure the worst case of catarrh, they will return the money without any question or argument. No business house in Janesville has a better reputation for square dealing than either the People's Drug Co., or King's Pharmacy, and when they guarantee that they will refund the money if Hyomel fails to cure catarrh, no one has any question as to the agreement being lived up to, both in the spirit and letter.

Hyomel is very easy and pleasant to use. Just breathe it through the little inhaler that comes with every outfit; every breath will bring recovery so much the nearer. It kills all the germs of catarrhal troubles in the air passages of the head, throat, and lungs, soothes and heals the irritated mucous membrane, and is the only natural cure for catarrh. The complete outfit costs but one dollar, and extra bottles of Hyomel can be obtained for fifty cents. Do not let a slight catarrhal trouble develop into one that may be serious and chronic. Use Hyomel at once, remembering that you run no risk whatever when you try Hyomel on the People's Drug Co. or King's Pharmacy offer of "No cure, no pay."

## MILTON

Milton, March 31.—The village was startled at 10:30 Tuesday night by the ringing of the fire bell and in five minutes the fire department and a hundred citizens were on hand ready for work. It proved to be the house on Greenman street owned by Mrs. W. T. Millar and occupied by P. S. Brown. The fire started on the second floor and burned through the roof but the prompt action of the fire ladder, with the chemicals and hose it was soon under control. Most of Mr. Brown's household goods were removed, but his wife's best clothing in the closet on the upper floor was burned. The building was insured in E. P. Clarke's agency in the Northwestern National and the loss was promptly adjusted by special agent G. W. Coon. Mr. Brown had \$300 insurance on his goods, but much was burned that money cannot replace. The origin of the fire is unknown but it was certainly not the work of an incendiary.

Miss Lucy Walker has gone to Chicago and on Saturday next will sail from Boston for a six months tour of the continent in company with her sister, Mrs. Harburt.

**Butter Scotch**  
A new kind of butter scotch, made in a new way; a better butter scotch than you ever tasted. Better because it is nutritious as well as delicious; better because it's pure, whole, some. Try the following recipe and test its real goodness.  
One cup of Karo Corn Syrup, one cup of granulated sugar, one-half cup of fresh butter. Boil until a small quantity dropped in cold water becomes hard and snaps. Do not stir while boiling. Add butter just before candy is done.  
**Karo**  
**CORN SYRUP**  
is decidedly preferable to any other syrups, which come to the consumer with all the dirt and dust the syrup measure has accumulated since its last use. ## THE REPUBLICAN TICKET.

The city campaign is progressing so quietly and has been so free from personal abuse, that it is difficult to realize that a campaign is in progress, yet the fact remains that candidates and their friends are working strenuously for success.

The contest for alderman in the Third ward is perhaps the most vigorous. This is a strong republican ward, and a republican nomination ought to be a safe guaranty of election, but past experiences prove that this does not always follow.

The candidates this year are both young men and both are popular. The democratic candidate has business interests at Spring Brook and the argument is used that if elected he will do more for that end of the ward, than could be accomplished by Mr. Jackman.

This is no argument at all, for an alderman knows nothing about locality, but is the representative of the entire ward.

The Gazette has nothing to say against Mr. Kinsella, but there is no reason why every republican in the ward should not vote for Mr. Jackman. He was the first choice of the executive committee of the Municipal League, and his paper at the Twilight Club on city finance a year and a half ago did more to arouse public sentiment for municipal reform than any other influence.

He is entitled not only to the support of the republican party, but to the support of the league as well. Sewerage, city lighting, and various other questions of importance will come before the new council and Mr. Jackman is well qualified to act intelligently for the best interests of the city. He belongs to the younger generation, and has no interest in public or private utilities. The republicans of the ward will honor themselves by giving him loyal support, and in doing this the city may be assured of a good official.

January and February were hard months for the railroads in the Northwest. Extreme cold weather disabled both engines and men. The Wisconsin Central reports 15 engineers sick at one time with pneumonia. The "southern corporations" have troubles of their own. If they don't pay all the taxes.

The Railway Age says that 6,508 miles of railroad are under contract for construction this year or 1500 miles less than a year ago, and estimates that about 5000 miles will be completed during the year. That means continued prosperity in railway circles.

The world's product of gold last year was \$328,000,000, and the output this year will exceed that amount.

yet there are some people who think that Wisconsin's governor should have a third term.

The Cunard Steamship company are constructing two liners for the American trade, that will make the trip from New York to Liverpool in five days. Competing lines are much disturbed and claim that a revolution will result in ocean traffic.

During a recent paper famine, one of the large Chicago dailies paid \$3,000 express charges on a consignment to avoid suspension of publication. The paper trust is iron clad and publishers foot the bills.

Some one has asked what nationality is the Hon. L. K. Luse, candidate for Judge of the Supreme Court. His old boyhood friends used to call him Lars Knutson Luse. Does that explain it?

In another column will be found a statement from Mr. Phillips concerning the truthfulness of the figures contained in the hand book recently sent out. Mr. Phillips' authority will no longer be questioned even by the governor's organs.

The New York Central is asking the legislature for the privilege of using electricity instead of steam for motive power. The next ten years will witness a great revolution in the transportation world.

The cause of the capital fire does not bear close investigation. It was a pure case of ignorance and inability. The men paid to protect the property were incompetent, and the state suffers in consequence.

Mr. Kerwin deserves defeat because of the methods used by the administration in his behalf. Talk about a machine, the state never had one worthy of the name until the governor took out his patent. It runs twenty-four hours a day and never takes water.

The Kerwin circulars sent out by the administration are being freely criticised by the press all over the state. Even the Oshkosh Northwestern, a Kerwin paper, denounces the methods employed.

Twelve thousand immigrants arrived in New York last week as against 16,000 for the same period a year ago.

India lost 40,000 people by the plague in a single week recently.

## PRESS COMMENT

Evening Wisconsin: The story that beats will largely supplant tobacco in the Wisconsin tobacco district, owing to unsatisfactory returns for the last crop, relegates cabbage one place to the rear as a tobacco substitute.

Oshkosh Northwestern: The only safe plan for Governor La Follette will be to have no state convention at all.

Seranton Tribune: The Minnesota woman who is suing for divorce because her husband insisted upon kissing her with poisoned lips raises a point that should interest cigarette smokers.

Ashtland Press: Gov. La Follette is doing some agile jockeying with his state central committee, which might be expected in ward politics, but which we hardly expect to see in state politics.

Cincinnati Commercial Tribune: With an annual visiting list of 120,000 Americans to Europe the old world has much to be thankful for in cold cash.

Green Bay Gazette: The Wisconsin Farmer says, "Let the boys learn to graft" which seems dangerous advice in connection with recent revelations regarding municipal corruption.

Racine Journal: The great lakes in no previous known season have been so filled as now with heavy ice and extensive ice-fields. Lake Superior reports thirty-inch ice on the west shore and the lake frozen practically across.

Chicago Chronicle: Henry Ward Beecher's successor is telling the people of Brooklyn all about the household question, and people are still wondering why the influence of the pulpit is declining.

El Paso Herald: One California professor who lost his temper with the coeds informed them that they were "nothing" but a lot of giggling girls. It is unfortunate that he did not mention what he expected them to be.

Madison Journal: The independent telephones were started to curb monopoly, but they are getting together. A newly formed company, headed by Judge Frank M. Fish of Racine, plans to consolidate 300 independent telephone companies in

Wisconsin and, eventually to cover pretty much the whole country. It will include telegraph lines and carry a capitalization of from \$50,000,000 to \$100,000,000.

Whitewater Register: The necessity for raising six hundred thousand extra dollars by "God's patent poor," because of the burning of an uninsured and unguarded state capitol building, will certainly go a good ways toward keeping them "poor," but whether they will continue "patient" or not is another thing.

Chicago Inter-Ocean: Alien immigrants of a "certain class" are likely to be excluded from Great Britain also, a country that has heretofore avoided all forms of restriction in this respect. The British workman, like the American workman, cannot compete with some aliens and live as he thinks he has a right to live.

Neenah Times: The new Madison and Green Bay railway project is already among the breakers. For du Lac wants the main offices; Oshkosh wants the car shops; Appleton is hot over not getting anything; Menasha claims the company's agent visited Neenah, but gave Menasha the go-by; Neenah will not issue any bonds; the road may go by the west shore of Lake Kettle des Morts and the whole outfit may go to hades, for all we care.

Evening Wisconsin: Mr. Ekersall's retirement from the Chicago University, to take up baseball, won't convince any football enthusiast that the feet-footed kicker whose work counted for so much in the Madison game last fall was anything more than a hired man on the Maroon team.

Racine Journal: The proposition is vigorously denied that the people of this state have given a mission to Governor La Follette wherein he is authorized to personally control state institutions, state educational institutions, stander state legislators, impress the labor of state employees in sending out this literature, utilize the work of state employees everywhere and generally speaking utilize the property of the state in furthering his own ambitions. That the primary election reform, the tax reforms he denies produced by a commission he himself fathered and influenced, or any other reform he has conceived, are to be propagated by any self appointed missionaries at the expense of the public treasury, is not accepted.

## OLD AS THE LAND

Gardner-Townsend  
Mr. George Townsend of Magnolia and Mrs. Gussie Gardner of Center were married at the home of the bride's brother, Mr. Frank Lowry, in Footville on Tuesday evening, March 29 at 8 o'clock. The ceremony was performed by Rev. Milton Wells. Only their own families were present. After partaking of a bounteous wedding supper prepared by Mrs. Lowry, they took their departure to the groom's home in Magnolia, he being a wealthy farmer of that place and held in the highest esteem by all who know him, while the bride was one of Center's most highly respected ladies, and will be greatly missed by her many friends. What is Center's loss will be Magnolia's gain.

## NEW THEORY ON THE GRAND JURY

HAVE ADJOURNED UNTIL AFTER ELECTION.

## WARNING TO VOTERS AT LARGE

Voting in Two Caucuses, It is Said, Will Be Part of Their Deliberations.

It is understood the adjournment of the grand jury until after election is very significant. Persons who claim to know the why and wherefore of matters pertaining to the public weal state emphatically that this has been done in order to trap any unscrupulous republican or democrat who may vote at the coming caucuses for delegates to the different state, county, assembly and senatorial conventions. These wise ones say that "spotters" have attended all the democratic caucuses held recently throughout the county and have lists of names of voters of that persuasion who attended them. Should these same men attend the republican caucuses to be held shortly they will be brought to justice to explain why they made this sudden transformation act. The game has been worked vice versa and republicans who change faith in a night are to be equally carefully treated. "This packing of caucuses must be stopped," said a prominent politician this morning. "Now we have the grand jury at hand we can use them and see that this infringement of the laws is stopped."

These facts will surprise many of the Jamesville people who are conversant with political affairs and the manner in which caucuses have been attended in the past. The above is printed as a warning to both republicans and democrats who are subscribers of the Gazette so they may govern themselves accordingly. The grand jury from their long sitting and their evident careful investigation of almost every complaint this county is troubled with are well fitted to take up this question of packing caucuses and it would probably go hard with the persons suspected.

## VERY PLEASANT GATHERING HELD

Ladies of the Woman's Union League Entertained by Mrs. Hill Last Evening.

The ladies of the W. U. L. and their friends were delightfully entertained Thursday evening at the pleasant home of Mrs. Hill on South Jackson street. She was assisted in receiving by Mrs. P. J. McKeligue and Miss Anderson. Notwithstanding the threatening aspect of the weather, about forty guests were present. Clinch was the order of the evening at which the more fortunate ones won the following: 1st ladies' prize, Miss Nina Forrest; 1st gentlemen's prize, Mr. P. J. McKeligue; 2d ladies' prize, Mrs. Frank Gibbs; 2d gentlemen's prize, Mr. Hill, and the baby prize was carried off by Mrs. Darrow. Several choice selections were rendered by Mrs. Lobel and Mrs. H. Baker and Miss Pettor of Oshkosh delivered some very pleasing songs. After which a most delightful repast was served. The tables were handsomely decorated and fairly grained with their burden of delicacies and at a late hour the guests departed with the understanding that they were to meet again soon at some other member's home.

## ROCK RIVER IS STANDING PAT

NO PERCEPTIBLE CHANGE IN HEIGHT TODAY.

## LAKE HORICON IS RISING

But Waters Are Falling at Other Points—Brick Wall Undermined Near Old Postoffice.

"Standing pat" expresses the attitude and attitude of the Rock river today. No perceptible change is apparent since yesterday to the ordinary observer, though some are certain that the water has gone down a small fraction of an inch. Capt. Norcross said this morning that favorable reports continued to come in from all points up river except Lake Horicon where the water is rising. He anticipates a steady decrease from now on.

## The Power Plant

"You can never tell what the water is doing down under the dams and sometimes without warning and without additional water people wake up to find some supposedly strong structure has been swept away. However, we are not alarmed about any of the dams on the Rock." Capt. Norcross said that the work at the power plant was difficult and tedious and in his opinion it would be some time in July before the wheels were turning there. It was to be regretted that the plant had not been finished in the fall that it might now be using the latent power that is going to waste.

## Undermined Brick Wall

One section of the brick walls of the old Marshall factory in the rear of the old postoffice and adjoining the sheet-iron shell which withstood the fire has been undermined and fallen during the past forty-eight hours. The masonry was about ten feet high and several yards wide.

## Still Frozen Over

## SMALL BLAZE IN ROCK RIVER MILLS

Flames Started in Carding Rooms This Morning—Damage Was Not Large.

Friction or a hot-box—the cause is unknown—was responsible for a small blaze in the Rock River Cotton Co.'s mills this morning. The fire was started in some inflammable material in the carding room and the fire department was called out shortly after nine o'clock. With three lines of the factory hose and the chemical engine the flames were soon extinguished but the firemen spent a half hour lighting the incipient blazes caused by the stray sparks. Whatever damage was sustained was due to the water. The factory was closed down for about two hours and resumed work at eleven.

## MASONS WILL BE AT WORK SOON

There Will Be Much Activity in the Building Line This Spring and Summer.

The cessation of the extreme cold weather that has been conspicuously present during nearly the entire winter, will cause a renewal in building activity and many persons who have been obliged to lay down their tools will find things agreeable for a resumption of work just as soon as the frost is out of the ground. This has been one of the hardest winters in recent history on the masons and brick layers. They have been unable to work and those who turn their hands in other lines have been compelled to make inroads on the savings of the summer wages which, to the ordinary worker, represents the surplus. One mason was heard to say that he had not done a day's work since a week or ten days before Thanksgiving day and that it had cost him about every cent he had laid away from the last year's earnings to pay his way through the expensive winter. This has been the experience of many workmen and they will all hale the day when they can resume their occupations and continue in their work unmolested by the elements.

Confirmation Sunday: Members of the cathedral class of St. Peter's English Lutheran church who are to be confirmed on Easter Sunday are requested to be present at the church at seven o'clock this evening. There will be preparatory service for those who are to partake of the Lord's Supper on that day at 7:30 this evening. The class of six will be the first to be received into the newly organized church. Rev. Andia will be present.

## CONDON AIMING AT A CHICKEN

STORY TOLD BY EIGHT-YEAR-OLD HAROLD MARSH

## AT GRIFFIN INQUEST TODAY

Stricken Father Broke Down While Telling Story—Jury in Session as We Go to Press.

Eight-year-old Harold Marsh who lives with Mrs. Canary beyond the five points was one of the principal witnesses at the inquest over the late George Griffin, held in Justice Eaves' court this afternoon. He said that he understood what an out was and it was administered. The boy then went on to tell how Johnny Condon had come up by Condon's saloon while he and some other lads were playing marbles and had shown them a revolver which he had taken from his father's bureau drawer and cartridge, as, saying that he was going to shoot chickens. Later on he had gone with the Condon boy to George Griffin's home as the latter was going to shoot chickens with him.

Fired at One of Them

The Griffin boy he said had been sweeping his porch when they arrived. While they were standing together they saw a chicken in the street by the tracks, not far from Mrs. Griffin's home. The Marsh boy testified that Johnny Condon raised the revolver to shoot at the chicken and shot the Condon boy instead. They were outside the fence at the time, he said, and afterwards Condon wiped the blood from the Griffin boy's face and carried him into the yard.

Father Tells Story

Yardmaster Dave Griffin was the first witness examined. He narrated all the circumstances leading up to his returning to his home at the call of a neighbor and finding his boy lying in the mud and the Condon boy standing with his hands on his hips. When he asked Condon who shot George to latter replied, "That damn out there," pointing to the tracks where no sign of a human being was to be seen. Mr. Griffin broke down while telling his narrative of the finding of his boy. His wife who has been critically ill has not yet learned of the death of her son and thinks that he is at the hospital. She intends to go to see him Sunday.

Mr. Flannigan, an uncle of the Condon boy residing in Green county, has retained Attorney Nolan to defend the lad. The plea will undoubtedly be on the grounds of accidental shooting.

## RUGER TALKED VERY SERIOUSLY

Republican Candidate for City Attorney Is Doing Excellent Work About the City.

William Ruger, Jr., is making a hard fight for the city attorneyship and on every hand is receiving promises of support at the coming election. Mr. Ruger is well fitted for the position and has the support of many of the prominent attorneys in the city in his endeavor to be elected for this important position. He is thoroughly conversant with all phases of the law which deals with municipal government and would make an able adjunct to the present city officials. Mr. Ruger is a republican of undoubted caliber and should have the support of all the republican voters of the city. He has the respect of his confederates in the legal profession and his election would be one of the best things that could happen to the city government.

Then suddenly, at the sight of his smitten enemy rolling on the ground at his feet, the primitive man, the half brute of the stone age, leaped to life in Wilbur's breast. He felt his muscles thrilling with a strength they had not known before. His nerves, stretched tense as harp strings, were vibrating to a new tune. His blood spun through his veins till his ears roared with the rush of it. Never had he conceived of such savage exultation as that which mastered him at that instant. The knowledge that he could kill filled him with a sense of power that was veritably royal. He felt physically larger. It was the joy of battle, the horrid exhilaration of killing, the animal of the race, the human brute suddenly aroused and dominating every instinct and tradition of centuries of civilization. The fight still was going forward.

Wilbur could hear the sounds of it, though from where he stood all sight was shut off by the smoke of the burning house. As he turned about, knife in hand, debating what next he should do, a figure burst down upon him, snadowy and distorted through the haze. It was Moran, but Moran as Wilbur had never seen her before. Her eyes were blazing under her thick frown like fire under a bush. Her arms were bared to the elbow, her heavy ropes of hair flying and coiling from her in all directions, while with a voice hoarse from shouting she sang, or, rather, chanted, in her long forgotten Norse tongue, fragments of old sagas, words and sentences meaningless even to herself. The fury of battle had exalted her to a sort of frenzy. She was beside herself with excitement. Once more she had lapsed back to the vikings and sea rovers of the tenth century; she was Hrothild again, a shield maiden, a Valkyrie, a berserker and the daughter of berserkers, and, like them, she fought in a veritable frenzy, seeing nothing, hearing nothing, every sense exalted, every force doubled, insensible to pain, deaf to all reason.

Her dirk uplifted, she rushed upon Wilbur, never once pausing in her chant. Wilbur shouted a warning to her as she came on, puzzled beyond words, startled back to a consciousness of himself again by this insane attack.

"Moran! Moran!" he called. "What is it? You're wrong! It's I! It's Wilbur, your mate! Can't you see?"

Moran could not see. Blind to friend or foe, as she was deaf to reason, she struck at him with all the strength of her arm. But there was no skill in her fighting now. Wilbur dropped his own knife and gripped her right wrist. She closed with him upon the instant, clutching at his throat with her one free hand, and as he felt her strength, doubled and tripled in the fury of her madness, Wilbur knew that, however easily he had overcome his enemy of a moment before, he was now fighting for his very life.

At first Wilbur merely struggled to keep her from him—to prevent her using her dirk. He tried not to hurt her. But what with the spirits he had drunk before the attack, what with the excitement of the attack itself and the sudden unleashing of the brute in him an instant before, the whole affair grew dim and hazy, in his mind. He ceased to see things in their proportion. His new found strength gloried in matching itself with another strength that was its equal. He fought with Moran not as he would fight either woman or man or with anything human, for the matter of that. He fought with her as against some impersonal force that it was incumbent upon him to conquer—that it was imperative he should conquer if he wished to live. When she struck, he struck blow for blow, force for force, his strength against hers, glorying in that strange contest, though he never once forgot that this last enemy was the girl he loved. It was not Moran whom he fought. It was her force, her determination, her will, her splendid independence, that he set himself to conquer.

Already she had dropped or flung away the dirk, and their battle had become an issue of sheer physical strength between them. It was a question now as to who should master the other. Twice she had fought Wilbur to his knees, the heel of her hand upon his face, his head thrust back between his shoulders, and twice he had wrenched away, rising to his feet again, panting, bleeding even, but with his teeth set and all his resolution at the sticking point. Once he saw his chance and planted his knuckles squarely between her eyes where her frown was knotted hard, hoping to stun her and end the fight once and for all. But the blow did not seem to affect her in the least. By this time he saw that her berserker rage had worked itself clear as fermenting wine clears itself and that she knew now with whom she was fighting, and he seemed now to understand the incomprehensible and to sympathize with her joy in measuring her strength against his, and yet he knew that the combat was deadly serious and that more than life was at stake. Moran despised a weakling.

For an instant, as they fell apart, she stood off, breathing hard and rolling up her sleeve. Then, as she started forward again, Wilbur met her half way, caught her round the neck and under the arm, gripping her left wrist with his right hand behind her. Then, exerting every ounce of strength he yet retained, he thrust her down and from him until at length, using his hip as a pivot, he swung her off her feet.

## Rheumatism "THE PAIN KING."

Those who have ever felt its keen, cutting pains, or witnessed the intense suffering of others, know that Rheumatism is torture, and that it is rightly called "The King of Pain."

All do not suffer alike. Some are suddenly seized with the most excruciating pains, and it seems every muscle and joint in the body was being torn asunder. Others feel only occasional slight pains for weeks or months, when a sudden change in the weather or exposure to damp, chilly winds or night air brings on a fierce attack, lasting for days perhaps, and leaving the patient with a weakened constitution or crippled and deformed for all time.

An acid, polluted condition of the blood is the cause of every form and variety of Rheumatism, Muscular, Articular, Acute, Chronic, Inflammatory and Sciatic, and the blood must be purged and purified before there is an end to your aches and pains. External applications, the use of liniments and plasters, do much toward temporary relief, but such treatment does not reach the real cause or cleanse the diseased blood; but S. S. S., the greatest of all blood purifiers and tonics, does cure Rheumatism by antidoting and neutralizing the poisonous acids and building up the weak and sluggish blood. It is safe and reliable in all forms of Rheumatism. It makes the old acid blood rich, and the pain-tortured muscles and joints are relieved, the shattered nerves are made strong, and the entire system is invigorated and toned up by the use of this great vegetable remedy.

The prizes will be awarded immediately after the close of the contest.

The competition is open to all. It is only necessary to spell the word so it could properly be pronounced Egg-O-See, and to send it to the Egg-O-See Co., Quincy, Ill., on or before June 15, 1904. The only other condition being that for each five ways of spelling you must send in one of the little folders, (same as used in the school children's contest) found inside of each package of the food. Be sure to write your name and address plainly. Save the folders as you will need one of them for each five different ways of spelling "Egg-O-See."

Some of the ways you can spell Egg-O-See are as follows:

Egg-O-See, Egg-O-Cy, Egg-O-Ce, Egg-O-Cie. Save the folders and get your friends to help you and it will be easy to get one of the prizes.

We have paid many thousand dollars to the school children of America to familiarize all with the merits of the incomparable food, Egg-O-See, and we are offering these spelling prizes for the same purpose.

Flaked wheat is now recognized as the most healthful, nutritious and delicious of all foods. It only remains for you to select the best. Grocers report now that they are selling practically nothing but Egg-O-See, because it is far and away the best and a large package retails for 10 cents.

ASK YOUR GROCER FOR THE GREEN PACKAGE. If your grocer does not keep it, send us his name and 10 cents and we will send you a package, prepaid.

Address all communications to Egg-O-See, Quincy, Ill.

The Constant Wearing of a Hat Propagates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalp of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

## ELECTION NOTICE

OFFICE OF COUNTY CLERK,  
Janesville, Wis., March 27, 1904.

To the Electors of Rock County:  
Notice is hereby given that a judicial election is to be held in the several towns, wards and election precincts in the County of Rock, on the 5th day of April, 1904, at which the officers named below are to be chosen. The name of the candidate for each office to be voted for, whose nominations have been certified to this office, are given opposite the title of the office and under the appropriate party or other designation, each in its proper column:

### INFORMATION TO VOTERS.

The following instructions are given for the information and guidance of voters: A voter upon entering the polling place, and giving his name and residence, will receive a ballot from the ballot clerk, which must have endorsed thereon the names or initials of both ballot clerks, and no other ballot can be used. Upon receiving his ballot, the voter must retire alone to a booth or compartment, and prepare the same for voting. A ballot clerk may inform the voter as to the proper manner of marking a ballot, but he must not advise or indicate in any manner whom to vote for. If it be a general election these words are to follow: "The voter if he wishes to vote for all the candidates nominated by any party, should make a cross mark, X, under the party designation printed at the top of the ballot in the circle made for that purpose. A ballot so marked and having no other mark, will be counted for all the candidates of that party in the column underneath, unless the names of some of the candidates of the party have been erased or a cross mark placed in the square under the name or at any place in the space occupied by the name or names of candidates in another column, and will be counted for any name written in lieu of one erased. If the voter wishes to vote for some of the candidates of different political parties he should make a cross mark under the name of each candidate he desires to vote for, or at any place within the space in which the name is printed. If he wishes to vote for a person for a certain office whose name is not on the ballot, he must write the name in the blank space under the printed name of the candidate for the office. The ballot should not be marked in any other manner. If the ballot be spoiled it must be returned to the ballot clerk who must issue another in its stead, but not more than three in all to any one voter. Five minutes' time is allowed in booth to mark ballot. Unofficial ballots or memoranda to assist the voter in marking his ballot can be taken into the booth and may be used to copy from. The ballot must not be shown so that any person can see how it has been marked by the voter. After it is marked it should be folded so that the inside cannot be seen, but so that the printed endorsements and signatures of the ballot clerks on the outside may be seen. Then the voter should pass out of the booth, or compartment, give his name to the inspector in charge of the ballot box, hand him his ballot to be placed in the box and pass out of the voting place. A voter who declares to the presiding officer that he is unable to read, or that by reason of physical disability he is unable to mark his ballot, can have assistance of one or two election officers in marking the same to be chosen by the voter, and if he declares that he is totally blind he may be assisted by any person chosen by him from among the legal voters of the county. The presiding officer may administer an oath, in his discretion, as to such person's disability. The party designations and candidates for the different offices are as follows:

## ...Forty Years Ago...

Janesville Daily Gazette, Friday, April 1, 1864.—Closing of Schools.—The winter term of our schools closed today.

The sutlers of the Army of the Potomac have been ordered to leave the front by April 14th. Significant.

The rebels in Coles county, Ill., have dispersed, and now the officers of the government are arresting the ring leaders.

2nd Wisconsin Cavalry.—286 men belonging to this regiment passed through our city last evening about 11 o'clock on their way to Madison.

Bound for the Front.—Nine coaches containing about 450 soldiers passed through our city this noon on their way South. They were from Madison and most are new recruits for our regiments now in the field.

Arrest for the Murder of Mr. Levi Grant.—A man named James Foley was yesterday arrested at Beloit on suspicion of having murdered Mr. Levi Grant, who was shot at Newark on Wednesday. He was brought to

this city last night and lodged in jail. Depositions from parties in the neighborhood and at Beloit state that the man has made threats against Mr. Grant some two or three days before the murder, then having had some difficulty in regard to a certain piece of land. The officers are busy ferreting out evidence in the case.

A Committee to Settle.—We learn that a meeting of citizens last evening, Messrs. H. N. Comstock, A. N. Bates, Cyrus Minor and O. Dann, were appointed a committee of citizens of the town of Janesville to arrange the distribution of those villi-uners credited to Janesville, without designating whether they were enlisted in city or town of Janesville. This appointment was made at the suggestion of Capt. Putnam, Provost Marshal, who desires a satisfactory and equitable adjustment of the respective claims of the city and town.

On Monday night the Assembly of Nova Scotia passed a law uniting that Province and New Brunswick and Prince Edward's Island under one government.

## Simple Way to Gain weight

"Mi-on-a, the Flesh Forming Food, Gives Remarkable Results," Says The People's Drug Co. and King's Pharmacy.

Mi-on-a makes thin people fat. It gives perfect digestion and cures all stomach troubles. The scrawny, emaciated person always has more or less trouble from indigestion. Mi-on-a will overcome all the ills afflicting the poor, weak, thin dyspeptics. It makes them plump and gives health and strength. It strengthens the digestive organs and restores health so that the daily food is readily assimilated and makes solid bone and firm muscle, rich blood and healthy flesh.

In Janesville there are many people who have proven in their own case the remarkable flesh forming qualities of Mi-on-a. It can be used by the most delicate. It contains no alcohol and is not a cod liver oil preparation. It comes in small tablets, costing 50c a box, and if you take one tablet before eating, you can enjoy a hearty meal and feel that health and good flesh will quickly and surely return.

The People's Drug Co. or King's Pharmacy will give a written guarantee with every box of Mi-on-a that they will refund the money if it does not do all that is claimed for it. You certainly can afford to commence using Mi-on-a with the understanding that it costs nothing unless you are cured.

their orders filled the packers pounded the market to the extent of 5c to 10c more decline making the close 20c to 25c below the best time yesterday. We do not look for a repetition of today's receipts, although we look for liberal receipts tomorrow and some more decline, but after that we believe hogs will come back again and we would not be surprised to see them go still higher than they touched yesterday.

Receipts of sheep have increased about 8,000 over a week ago at this time, just a few too many for the demand. Sheep sold today about steady but lambs were 10c to 15c lower, top \$5.00. Most about lambs sold at \$5.25 but not many are going above \$5.10. Yours very truly,

DANIELS, WELLS & CARPENTER.

MAN ILL WITH PNEUMONIA TAKEN TO COUNTY HOUSE

James McIntyre Removed Yesterday From Cot in City Lock-up.

James McIntyre who drifted into the city from Chicago last Friday in search of work and was taken ill with pneumonia upon his arrival here, was removed from the lock-up to the county house yesterday. The man says that he has been working with extra gangs on the railroads during the summers of the past few years and started out with enough money to pay his way until he should secure work. When sickness overtook him he had to apply for aid as he has no known relatives, his parents having died long ago. He has been given as good care as possible in the lock-up and it is thought that he will recover.

## CONDITION OF THE STOCK MART

What Has Been Doing in Live Stock in Chicago During the Past Few Days.

Receipts of cattle this week have increased over same time last week about 7,000 head, too many for the demand. Monday, Tuesday and today the same market could be written for each day, steady on the best and slow to the lower on all other kinds. Considering the heavy receipts today and the glutted condition of all markets we were able to dispose of our holdings at prices fully as good as one could expect but not high enough to please feeders very well. Our trade was slowest on all grades selling between \$1.25 and \$1.75, such as compose the bulk of the receipts, and those outside of these figures sold steady. The better roads and coming first of April, when Illinois feeders have to pay taxes on what stock is in their possession, was the cause of the heavy run today. We believe this week will be the heaviest in some time and with the close of the season upon us the future looks more encouraging. Higher prices are bound to come.

Receipts of hogs this week increased about 35,000 over same time last week. Our shipping demand has been so great that after the shippers have filled their orders every day there has been scarcely enough left for the packers to supply their fresh meat trade so they have not cut much figure in our market of late. Last Monday over 20,000 went east, the largest day's shipments in over two years and yesterday was about the largest Tuesday shipments in that length of time. But today we received enough hogs for the packers to make their influence felt and they lost no opportunity to depress prices. Our market opened 10c to 15c lower and the bulk of the best hogs sold that way, but after the shippers got

"ELMO"  
CACTARINE  
SAVED MY LIFE BY CURING ME OF  
HEART DISEASE

Elmo Cactarine cured William Albert Smith of Heart Disease, even after he had given up all hopes of ever being cured. It has done the same thing for thousands of others and it will do so in every instance. If your heart is weak or diseased, no matter what the cause may be, get a box of Elmo Cactarine, give this medicine a chance to prove to you that it is better than anything in the world. Every druggist who sells Elmo Cactarine is authorized by the manufacturer to give a written guarantee to all who buy the medicine, and to refund the money to all who say they have not been benefited from its use. Would we make this guarantee offer if it did not know for an absolute certainty that the medicine will do as we claim? Is there another medicine in the world that gives those who are afflicted with Heart, Stomach, or Nervous Diseases the same opportunity? What more can be done to prove the merit of Elmo Cactarine?

READ THIS LETTER; IT MAY BE THE MEANS OF SAVING YOUR LIFE.

ELMO CHEMICAL COMPANY.  
Mails of Elmo Cactarine, Des Moines, Iowa.  
I wish to say to you that I think you have the greatest remedy for heart trouble in the world. I have been afflicted with a serious difficulty with my heart for several years. The doctors called it Valvular disease. I had an irregular pulse all the time. About every five beats it would skip a beat and two or three times a day my heart would beat very fast up to 120 beats a minute, then it would slow down and almost quit beating and during those spells I would almost die. When I sent for your free sample of Cactarine I was like a drowning man catching at a straw, and I had no hope, but after taking all you sent I felt a little encouraged and decided to send for three boxes. Today I have only one tablet left in the third box, but I have not felt a particle of trouble with my heart for two weeks. My pulse is regular, no more smothering, and I feel perfectly well, but I wish to keep your remedy on hand. It saved my life.

WILLIAM ALBERT SMITH.

FREE A 25 CENT Box of ELMO CACTARINE

People having Heart Disease, especially the chronic cases, usually have a run down nervous system and Stomach Trouble, which is very often the direct cause of the heart trouble; this is due to the fact that the Heart, Stomach and Nervous System are closely connected and dependent upon one another for nourishment. Carry on their individual functions, hence, a weakness of disease of any one affects all. Elmo Cactarine cures any and all diseases of the Stomach, Heart and Nervous System.

STRAIGHT TALK  
ABOUT GETTING WELL

If this was the only medicine advertisement in this newspaper, we believe you would quickly try a bottle of our Rexall Mucu-Tone. But you have read the extravagant claims of so many marvelous medicines that you have grown skeptical. Let us reason with you a moment.

We say to you positively and without reservation that we have never before known a tonic or catarth cure to accomplish the results worked by Mucu-Tone. It is a scientific, meritorious, reliable remedy. We know how it is compounded, and we unhesitatingly give it our endorsement—not only our endorsement, but our guarantee. If you try a bottle of Rexall Mucu-Tone and are not thoroughly satisfied with it, we will refund your money promptly, cheerfully and without any red tape.

Now, we can't afford to allow such strong statements to be printed in our advertising space unless we know we are right. If we deceived you in this advertisement, we would lose your confidence and your trade—and we don't spend money in advertising for the purpose of losing trade.

SOME OF OUR REASONS.  
Let us give you some of our reasons for talking so earnestly about Rexall Mucu-Tone.

You know that our bodies are lined with a thin, web-like skin called the mucous membrane. It begins in the nose and mouth and extends down the throat through the stomach, intestines and bladder. It also covers the liver and kidneys; and in women, the pelvic organs.

Now this membrane is composed of millions of tiny cells filled with a fluid called mucus, which is a sort of lubricant for the various organs. If a few of these cells should become choked up and unable to supply this fluid, it would cause sickness; if most of them were so affected it would cause death.

WHAT IT MEANS TO BE "RUN DOWN."

This is what causes the state of ill health and weakness which exists when you are "run down."

when the doctor tells you you are suffering with "general debility."

We know of one remedy that will correct these conditions and restore health—Rexall Mucu-Tone.

There is no need of a technical description of how Mucu-Tone on going into the stomach is quickly taken up in the digestive process and, entering the blood, is carried through the network of tiny capillaries and so is brought in direct contact with the sore membranes.

NEW LIFE! NEW VIGOR!

What you—what all of us—are interested in is getting rid of the pain we are suffering, in regaining the strength we have lost, in restoring the vigor of youth, in filling our arteries with rich, red blood and building up our bodies and in steadying our fagged nerves. Rexall Mucu-Tone does all of this and does it quickly. There is no long waiting for promised effects to slowly make their appearance; no months of deferred hope; no realization that you have again wasted money that you could ill afford to lose; no final despair.

MRS. BEAUREGARD TELLS EXPERIENCE.

"I have taken every catarth remedy I ever heard of—have tried each of them faithfully—in my efforts to get rid of a bad case of catarth of the stomach and intestines which for three years has made my life miserable, but I can truthfully say that none of them can in any way compare with Rexall Mucu-Tone. The others may have helped me somewhat but—Mucu-Tone cured me. I did not believe it possible that I could ever again feel as well as I have for the past three weeks. Twenty years have apparently been taken off my shoulders and I feel so well I could almost shout for joy. All pain and all of the nauseating symptoms have disappeared. Good, red blood is coursing through my veins and I am as strong as I am happy. All success to Mucu-Tone."

Mrs. Beauregard  
219 Second St., Albany, N. Y."

We know that Mucu-Tone will do all this and we hereby agree to refund your money if you find it otherwise.

Mucu-Tone is one of the famous Rexall Remedies, which are sold only at our store. Large bottles, 89 cents. Mail orders filled.

## Coming Attractions.

The greatest production of farce

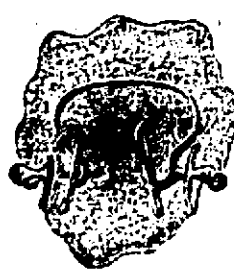

HAPPY HOOLIGAN

comedy ever made, is the season of

1903-04 production of "Happy Hooligan" which comes to the Myers Grand on Saturday April 2, Matinee and night. With new scenery, a \$2,500 outfit of costumes, a number of the cleverest comedians in the business and a score of pretty girls, "Happy Hooligan," which is always a favorite with local theatregoers, will come pretty near to being the headliner of attractions of its kind which will visit this year.

The Gaskell Stock Co. at Myers Grand next week will be seen in the following successful plays, "The Inside Track," or "True as Steel," "A Silent Partner," "Other People's Money," "The Man From Mexico," "Rip Van Winkle," "A Dangerous Game," and "An American Heiress." Refined vaudeville between the acts and a large and competent cast assures a successful week for the management. Popular prices will prevail.

## The TOP COAT

Is perhaps one of the "nobbiest" overgarments made. It has an air of jauntness all its own.

But unless it is properly proportioned it loses its individuality. You can depend upon the Clothcraft Top Coat to be fashioned on the proper lines.

The shoulders are broad, the collar clings closely to the neck, the back hangs gracefully, the whole garment is as shapely as the best tailors in the land can make it.

The illustration gives a good idea of the appearance and fit of the coat, but you will better appreciate its merit by seeing it.

Come to our store and examine it, look at the material, the lining, the trimmings—try it on and see what a superb garment it is. You'll agree it is worth more than it costs—\$10 to \$25.

And be sure to get the new style book. It shows all the proper fashions for spring and summer as exemplified in "Clothcraft" creations. It's yours for the asking.
